Projects/Updates:

- 1. Engine Runs** – We have been getting numerous complaints recently about aircraft performing engine run-ups on parking aprons/taxiways/taxi lanes. I would like to remind everyone that per the rules and regulations of the airport *“All engine run ups conducted for purposes of maintenance activities shall be conducted at the run-up areas adjacent to the runway ends (RWY 14/RWY 32/RWY 01/RWY 19).”*
- 2. Fence line Maintenance** – We have begun a large-scale project to clear the airports fence lines of trees/obstructions. This will help aid us to secure our property and allow for better wildlife deterrence.
- 3. TWY C Standing Water (AKA Lake Charlie)** – With the ground likely to dry out significantly over the next few weeks, Airport staff will also be working on re-grading some areas adjacent to TWY C to mitigate the standing water that persist after rainfall. I will issue the appropriate closure NOTAM when we are able to conduct this work.
